Phonics & Reading Programme

Phonics is important when it comes to early reading and writing for young children. We teach letter sounds in an enjoyable and multi-sensory way, the way that young children learn best.

Objectives

The programme aims to:

- ✪ Develop confidence and fluency which is essential for effective vocal communication
- ✪ Improve children's articulation and pronunciation
- ✪ Develop reading and spelling skills through the phonetic sounds
- ✪ Expand their vocabulary

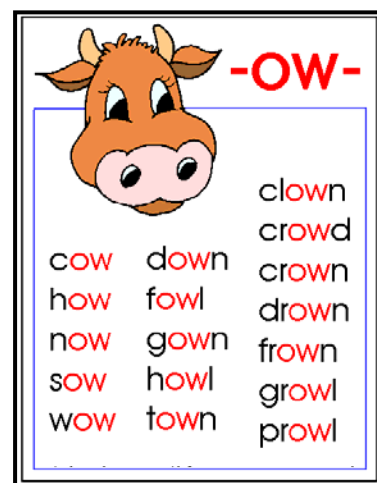

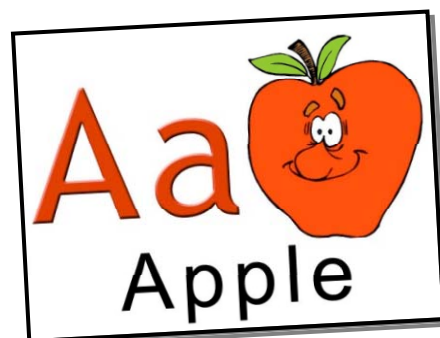

Content

Phonics is a balanced reading programme that includes direct and explicit instructional strategies for teaching phonological awareness and phonics.

It covers a series of lesson plans using various strategies, aided by flash cards and worksheets and conducted in a highly interactive environment.

The programme includes:

- ✪ Consonants & Vowels
- ✪ Sound Blends
- ✪ Diphthongs and Diagraphs
- ✪ Reading Aloud
- ✪ Rhyme Recitation
- ✪ Simple Reading

Duration

1.5 hours per lesson

Target Group

4 - 7 years old

Junior Chinese Enrichment

Junior Chinese Enrichment creates a relaxed Chinese learning environment that enables the children to develop a sound foundation in Chinese and be well acquainted with the language.

This is achieved via our special reading programme, language games, sing-a-long sessions, storytelling sessions, and oral activities.

Our lessons also teach the commonly used Chinese vocabulary, so that young children can form Chinese words from individual Chinese characters and use them appropriately. Our interactive and creative approach will stimulate the child's interest in Chinese.

Objectives

The programme includes:

- ✦ HanYu PinYin
- ✦ Chinese Rhymes
- ✦ Story Telling
- ✦ Writing Skills
- ✦ Vocabulary
- ✦ Story Telling
- ✦ Speech Development
- ✦ Oral Expression
- ✦ Poems Recitation

Duration

1.5 hours per lesson

Target Group

4 - 6 years old

Speech & Drama

Speech & Drama is the perfect medium for helping children to acquire both confidence and effective communication skills. It allows young children to express themselves freely, to explore their imaginations, to develop and present their ideas.

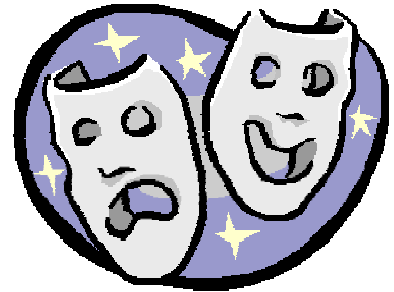

Objectives

The programme aims to:

- ✪ Develop and foster enthusiasm and confidence to perform
- ✪ Develop a desire to share and present their ideas
- ✪ Improve clarity in speech, tone of voice and vocabulary
- ✪ Foster imagination and creativity in the children
- ✪ Develop an enjoyment of the English language and communication

The programme includes:

- Dramatisation
- Role Play
- Mime & Movement
- Public Speaking
- Rhyme/Poetry Recitation
- Reading Aloud
- Choral Recitation

Duration

1.5 hours per lesson

Target Group

4 - 7 years old

KINDER WRITER

This course is designed to help unleash the imagination of children aged 4-6. Our carefully structured course will explain the fundamentals of good story creation, while at the same time providing a constructive outlet for creativity. Children will find this course to be a solid foundation for writing in all subjects in later years. Most of all, they will have fun in the process.

Objectives

The programme aims to:

- ✿ Develop a desire for children to love reading.
- ✿ Improve their creativity to form story.
- ✿ Enhance the knowledge and vocabulary
- ✿ Foster imagination and creativity in the children
- ✿ Develop an enjoyment of the English language.

The programme includes:

- Don't be afraid of English
- Different kinds of story
- Create short story
- Basic Writing
- Sentence structuring

Duration

1.5 hours per lesson

Target Group

5 - 6 years old

P1 Preparatory Class

The transition from Kindergarten to Primary One is a big leap for all children. To help them bridge the gap between pre-school and primary school, it is important that we provide them with a strong foundation in English and Mathematics.

Objectives

The programme aims to:

- ✪ Enhance all K2 students with love and flair for English language
- ✪ Expand their knowledge in the language before entering Primary 1
- ✪ Provide a good foundation in Maths concepts
- ✪ Inculcate interest and creativity, and enhance memory skills through songs, games, quizzes and role play

Content

The programme is categorised by various topics:

- Games
- Songs
- Quizzes
- Puzzles
- Role Play

Duration

1.5 hours per lesson

Target Group

K2 students

Comprehension & Creative Writing

Creative Writing Workshop is designed to put the students in touch with their creative abilities, freely express their thoughts and have fun with their writing. It develops the student's skill in writing composition.

Conventional composition is task oriented, emphasizing the completion of the story within a specific time frame.

Creative Writing guides our students through an exciting range of creative writing styles while enriching their vocabulary and reinforcing the grammar foundation. Students learn how to write confidently, expressively and accurately. They will also be enriched in their vocabulary and grammar.

Objectives

The programme aims to:

- ✪ To encourage students to read good models of the written language from poetry to story form.
- ✪ To practice spelling, drafting, punctuation and presentation skills which are needed for effective writing.
- ✪ To help students acquire essential grammatical skills and knowledge about the English language in order to write well.

Duration

1.5 hours per lesson

Target Group

P1 – P6

Action & Enrichment Maths

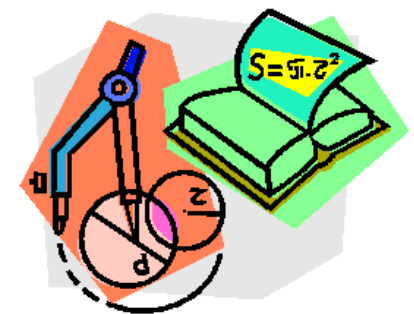

Action & Enrichment Maths enables the pupils to acquire the necessary mathematical concepts and skills, develop their thinking processes and apply them to solve mathematical problems.

Action & Enrichment Maths uses lively and exciting games, manipulative and activities to stimulate the student's creativeness and make them more innovative and enhance their interest in Mathematics.

The objectives of the Action & Enrichment Maths workshops are:

- ✪ To build a solid foundation in Math
- ✪ To stimulate interest in Math
- ✪ To instill confidence
- ✪ To demonstrate application of Math in daily situations

Content

The programme comprises of:

- Action Maths activities on selected Maths topics
- Topical-based worksheets
- Maths Activities :- Number Crunchers, Number Galaxy, etc
- Heuristics Problem Solving Techniques

Duration

1.5 hours per lesson

Target Group

P1 – P6

Fun Science Enrichment

Fun Science enrichment programme, aims to generate children's interest in the field of Science, reinforcing their concepts and allowing them to relate better with the theories acquired in schools and give them insights into how Science can impinge into our lives.

The Science Enrichment is designed to:

- ✿ provide the students with experiences which build upon his interest in and stimulate his curiosity about his environment .
- ✿ provide the students with scientific concepts to help him understand himself and the world around him.
- ✿ provide the students with opportunities to develop skills, habits of mind and attitudes necessary for scientific enquiry.
- ✿ prepare the students toward using scientific knowledge and methods in making personal decisions
- ✿ help the students appreciate how science and technology influence people and the environment.

Fun Science Enrichment will be delivered in an interactive manner through experiments. These hands-on experiments are developed in accordance to the current Primary 3 to 6 Science syllabus.

Duration
1.5 hours per lesson

Target Group
P1 – P6

Chinese Creative Writing & Comprehension

Exposure to a good balance of English and Chinese at an early age helps your child become effectively bilingual. Chinese Enrichment lays the building blocks for a strong Chinese language foundation. Creative and enjoyment activities encourage developmental growth and help children gain mastery of basic language skills in Chinese.

The pupils are shown how to analyse a simple text and pick out the main ideas in it, how to identify the main points in more involved articles and passages, and how to select the required items for their answers.

The pupils are then led to describing and discussing the key elements in pictorial stimuli and to write about them in a spontaneous and original way from their personal perspectives

The programme includes:

- ✦ Vocabulary enrichment
- ✦ Sentence formation
- ✦ Effective listening, speaking and describing
- ✦ Reading
- ✦ Writing and re-writing
- ✦ Accurate comprehension of a variety of texts
- ✦ Creative thinking

Duration
1.5 hours per lesson

Target Group
P1 – P6
